SUMMARY

Experienced Full Stack Developer skilled in Python and JavaScript programming, with a strong background in databases and design logic. Proficient in the entire web development stack, including both front-end and back-end technologies. Collaborative team player dedicated to delivering high-quality software solutions that exceed client expectations. Passionate about innovation and committed to excellence. Ready to contribute as a Full Stack Developer in any organization.

TECHNICAL SKILLS

Languages : Python, JavaScript, Java, Front-end : React, HTML, CSS, Back-end : Django, Node.js, Express.js,
Databases : PostgreSQL , Tools and Platforms : Linux, Docker, Git.

TECHNICAL PROJECTS

JobSpree - [Github](#) | [Jobspree.me](#)

An all encompassing job search tool kit, and tracker website.

- Utilized the Django framework, to integrate the front end with the databases and logic of the website.
- To achieve the tracking, I integrated a postgres database with Django.
- I dealt with the interviews advice, by using the Openai api to transcribe and analyze interview recordings
- I visualized user data by incorporating the chart-js javascript library.

Qrify - [Github](#) | [Deployment](#)

All in one QR Code Generator for Chrome.

- Developed the QR code generation functionality using JavaScript and the QR creator library.
- Integrated the logic with the Chrome browser through the Chrome Extension API.
- Dealt with file and code uploads using apis with asynchronous coding in javascript.
- Used Visual Hierarchy design, and color theory to make the extension appealing and accessible.

EXPERIENCE
